My Art

these breasts are no longer stargazers
even alert they can't look a man
in the eye they sighed milk
for two girl children who grew round
& learned the alphabet on pearls of (mama)dew,
these breasts became bread, then lowered
their dough heads, watched the children
crawl & walk, these breasts erased
memory of tongues) craving
different food, two bowls of fire
cupped in a hungry man's hands.

Expressions
of history,
culture,
community,
evolution,
and
process.
